

The On Top of the World route is one of 26 panoramic routes along the Danish coastline. Panorama Routes are premium cycle routes offering places to eat, accommodation and entertaining experiences. Beautiful views and places of special interest in the landscape characterise these routes. The Panorama Routes are part of the Powered by Cycling: Panorama project supported by the European Regional Development Fund.

## Denmark's mountain route - On Top of the World: 18 km

Breathlessness is the word on this Panorama Route. The route takes you through some of Denmark's most breathtaking scenery. Magnificent views across cliffs and sea, winding and undulating landscapes with pastures and forests. The very hilly route will make you breathless and sweaty – but don't despair. The rewards will be great!

### Where the route takes you...

For this tour a mountainbike is

recommended. The trip can be started at any point, but this guide takes **Camping Møns Klint (1)** as its starting point. The camp site is located in beautiful natural surroundings at the edge of Klinteskov surrounded by high-lying lakes and pastures only 1.5 km from the Cliffs of Møn. The camp site offers bicycle hire, café and toilets.

The route takes you along winding and hilly roads to the romantic park of **Liselund (3)** inviting you to a break among the lakes, streams, monuments and buildings that form part of this romantic setting. At the top of the hill with a view of the park you will find Hotel Liselund Ny Slot. Note the burial mounds on the right of Liselundvejen as you cycle on towards Sømarkedyssen along Stendyssevej, which is a narrow paved road where the grass obstinately grows through the tarmac to create a decorative green wedge. The winding road takes you through open landscape to **Sømarkedyssen (5)**, which rises 90 metres above sea level with a view of East Møn. The stone dolmen is a giant dolmen built by our ancestors approx. 3300 BC and has characteristic bowl-shaped holes that may have played a role in a Bronze Age fertility cult. Find out more about this ancient monument on the information board by the dolmen.

At **Magleby Church (6)** pump up the wheels on your bicycle and fill your water flask within opening hours. The gravedigger is happy to tell you the history of the church and the local area. Continue towards Klintholm Manor along the newly paved Klintholm Allé with its tight tree crowns and soft hills. At the end of the last steep hill is **Klintholm Gods (8)** (Klintholm Manor) which until 1980 owned the Cliffs of Møn as well as the large pastures and forests on Høje Møn. As part of a major preservation effort, some of the areas were sold to the state. The Manor now relies on farming and forestry as well as Møns Klint Resort. Take a detour before Mandemarke to **Klintholm Havn (9)** (Klintholm Harbour) along

Hovvejen and Klintholm Havnevej (+5.5 km). Cool your tired legs in the blue waves and buy provisions at the farm shop, ice cream shop, grocery shop or one of the harbour restaurants. The cutter Discovery offers sailing trips of two hours around the Cliffs of Møn.

Stop in Mandemarke at the new picnic area with its tables and benches near the old pump house. Read the history of the village and the relocations of more than 100 years ago. See also [mandemarke.dk](http://mandemarke.dk). From Mandemarke, the Panorama Route takes Denmark's most beautiful 'mountain road' – Busenevej, which cuts through the immense hills at Høvblege and Mandemarke with a view of the Baltic Sea and southeast Møn. Take a break at **Høvblege rastepads (10)** (Høvblege Picnic Area) and explore the hills behind. They contain a wealth of rare plants – including orchids – and rich insect and bird life.

The route now takes you along Stengårdsvej into Klinteskov, an 800-hectare forest in very hilly terrain. Deep craters can be seen in several places. You cycle along a fine, hard earth track, but be careful of the edges. In the middle of Klinteskov is **GeoCenter Møns Klint (12)** – an experience centre with fun and instructive interactive exhibitions about the geological processes that have shaped Denmark. **Møns Klint (13)** is with its chalk cliff, stony beaches and matt green sea one of Denmark's most beautiful stretches of coast. See Dronningestolen, the highest point on the Cliffs of Møn, as it rises to 128 metres above sea level. According to legend, the Cliff King's queen sat here and looked out to see while the Cliff King was on his raids. Note the beech trees with their very light green leaves and gnarled shapes caused by the chalky ground. With the sound of the sea in your ears and the beautiful colours of the Cliffs of Møn, you cycle through the green Klinteskov back to Camping Møns Klint.

### Further options:

- (2) Huno Sø, Fiskesø and boat hire [campingmoensklint.dk](http://campingmoensklint.dk)
- (4) Rent a horse from Møn Islændercenter [moen-ishest.dk](http://moen-ishest.dk) or (1) [oplevelser-fra-ishest.dk](http://oplevelser-fra-ishest.dk)
- (7) Klintholm B&B: exhibition and shop selling glass art [klintholm-bb.dk](http://klintholm-bb.dk)
- (9) Klintholm Harbour: Galleri Pakhuset [pakhugalleriet.dk](http://pakhugalleriet.dk) and Butik Birthe Jarlbæk: [blomstermaleri.dk](http://blomstermaleri.dk)
- (11) Bakkegård Gæstgiveri invites you to take a break. Enjoy coffee and cake on a lounge with a unique view of the Baltic Sea. Gallery with changing exhibitions [bakkegaarden64.dk](http://bakkegaarden64.dk)

**Tip:** The Danish Nature Agency's leaflet entitled 'Møns Klint og Klintholm' (The Cliffs of Møn and Klintholm) contains suggestions for seven short and long hikes on Høje Møn [nst.dk](http://nst.dk)
